

Educational Attainment

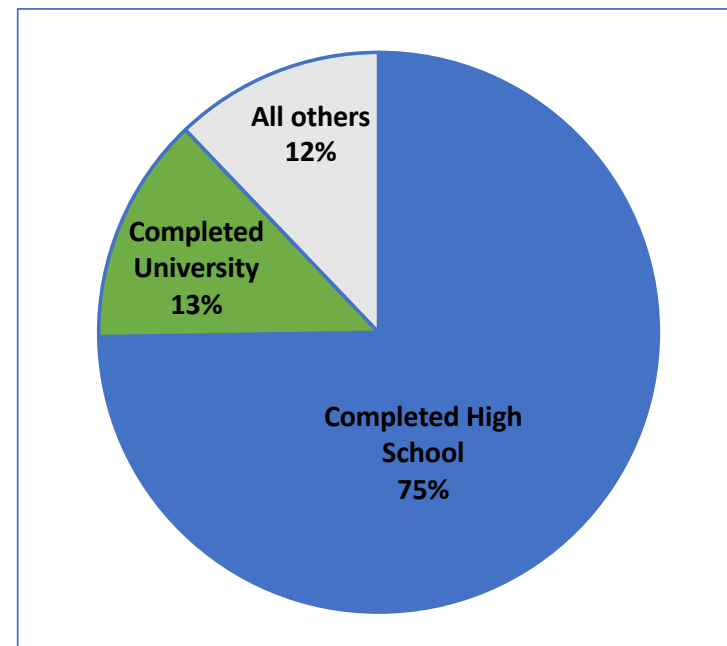

Honduras*

*Data Sources:
In 2013, only 7% of the Honduran labor force had more than 12 years of schooling, the average period of education that reduces the risk of being poor, according to Economic Commission for Latin America and the Caribbean EPDC National Education Profile 2014 Update

2/10/18

OLRM**

**Based on girls that have reached the age of 18 (assuming they had 12 years for schooling)

January 1988 -January 2018
